1. The purpose of the Annual Academic Performance Report (AAPR) is to have a national standard for determining the performance of schools. The AAPR has a national priority and principals of all ordinary schools (**Independent Schools excluded**) are reminded about the duty of schools to provide information as stipulated in the South African Schools Act No.84 of 1996 section 59(2), that every school (**Independent schools excluded**) must provide such information about the school as is reasonably required by the Head of Department.
2.
  - 2.1 It is expected from Circuit Managers in collaboration with other sections within the district to analyse the AAPR to determine whether the AAPR captures the challenges identified in school self-evaluation.
  - 2.2 Circuit Managers in collaboration with curriculum experts must identify problems and challenges that can be addressed in the short term and long term and then develop an action plan (circuit improvement plan) to address these challenges.
3. Schools will be provided with a capturing tool, which will extract already existing data from SA-SAMS and the principal must complete the rest of the report.
4. **Please note that this Annual Academic Performance Report pertains to the data of the 2024 academic year.**
5. To ensure the extraction of meaningful and useful data from SA-SAMS, all schools are required to fully implement Learner Information, Educator and Staff Information, Curriculum and Physical Resources Modules in SA-SAMS.

### **GUIDELINE ON CREATING THE ANNUAL ACADEMIC PERFORMANCE REPORT**

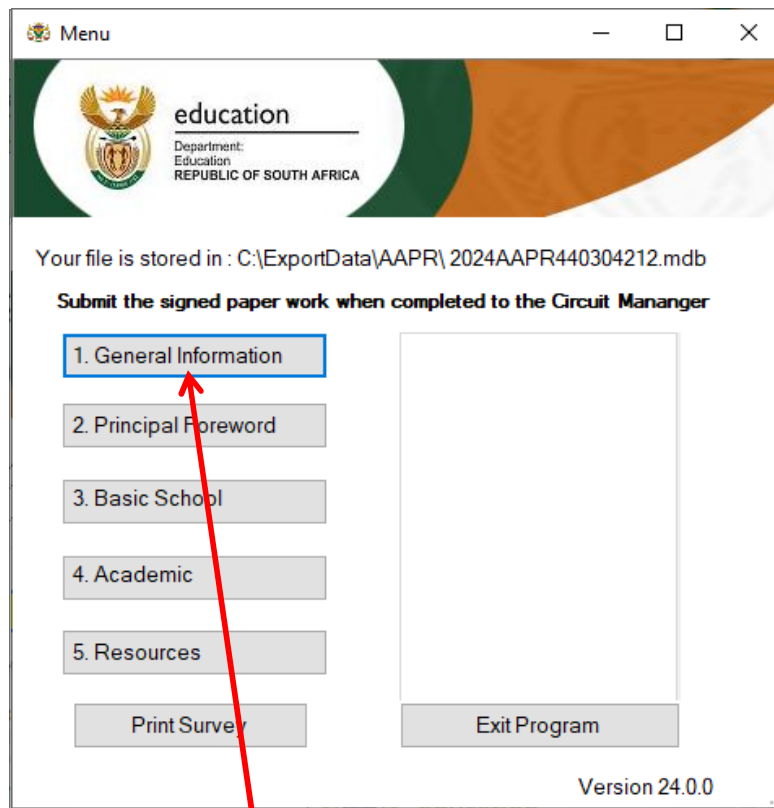

1. Open the **EMIS Portal** (<http://www.fsdoe.fs.gov.za/EMISPortal/>) website.
